

**SAVEETHA SCHOOL OF ENGINEERING
SAVEETHA INSTITUTE OF MEDICAL AND TECHNICAL
SCIENCES**

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

NAME: LOCHANA SRI R S

REG. NO: 192521348

COURSE: CSA0915 -JAVA PROGRAMMING

SLOT: B

PSEUDOCODE WRITING

1. Write a Java program to find the sum and average of five numbers.
Get the input from the user.

SIMATS Online Programming Lab

JAVA PROGRAMMING

Your Code

```
1 import java.util.*;
2 class Sum_Avg
3 {
4     public static void main (String[] args)
5     {
6         Scanner sc = new Scanner(System.in);
7
8         int a=sc.nextInt();
9         int b=sc.nextInt();
10        int c=sc.nextInt();
11        int d=sc.nextInt();
12        int e=sc.nextInt();
13
14        int sum = a+b+c+d+e;
15        double avg = (double)sum/5;
16
17        System.out.println("The sum is "+sum);
18        System.out.println("The Average is "+avg);
19
20    }
21 }
```

✓ Submitted

2. Write a Java program to convert the given number of days into years, months, weeks and days.

SIMATS Online Programming Lab

JAVA PROGRAMMING

Your Code

```
1 import java.util.*;
2 class Coverter
3 {
4     public static void main(String [] args)
5     {
6         Scanner sc = new Scanner (System.in);
7         System.out.println("Enter the days: ");
8         int Days = sc.nextInt();
9
10        int Years = Days/365;
11
12        int remaining_days = Days%365;
13
14        int Months = remaining_days/30;
15
16        int days = remaining_days%30;
17
18        System.out.println(+ Years+" Years" +Months + " Months"+days + " Days");
19    }
20 }
```

✓ Submitted

3. Write a Java program to check whether a person is eligible for voting. If not, display how many years are left.

SIMATS Online Programming Lab

JAVA PROGRAMMING

Your Code

```
1 import java.util.*;
2 class Voting
3 {
4     public static void main(String [] args)
5     {
6         Scanner sc = new Scanner(System.in);
7         int age = sc.nextInt();
8         System.out.println("Enter you age: ");
9         int remaining_years = 18 - age;
10
11         if(age>=18)
12         {
13             System.out.println("You are Eligible to Vote");
14         }
15         else
16         {
17             System.out.println("You Are not Eligible to Vote! You have to wait "+
18
19         }
20 }
```

✓ Submitted

4. Write a pseudocode to calculate employee income tax based on the given tax slabs. Input: Employee Number, Employee Name and Salary.
ANNUAL INCOME TAX(RS)

<500000 0

5L TO 7.5 L 5%

7.5L TO 10L 7.5%

10L TO 15L 10%

15L TO 20L 15%

>20L 20.

SIMATS Online Programming Lab

JAVA PROGRAMMING

```
1 import java.util.Scanner;
2
3 public class TaxCalculator {
4     public static void main(String[] args) {
5         Scanner scanner = new Scanner(System.in);
6
7         System.out.print("Enter Employee Number: ");
8         int empNo = scanner.nextInt();
9         scanner.nextLine();
10
11        System.out.print("Enter Employee Name: ");
12        String empName = scanner.nextLine();
13
14        System.out.print("Enter Annual Salary (Rs): ");
15        double salary = scanner.nextDouble();
16
17        double tax = 0.0;
18
19        if (salary <= 500000) {
20            tax = 0.0;
21        }
22        else if (salary <= 750000) {
23            tax = (salary - 500000) * 0.05;
24        }
25        else if (salary <= 1000000) {
26            tax = (250000 * 0.05) + ((salary - 750000) * 0.075);
27        }
```

SIMATS Online Programming Lab

JAVA PROGRAMMING

```
else if (salary <= 1500000) {
    tax = (250000 * 0.05) + (250000 * 0.075) + ((salary - 1000000) *
}
else if (salary <= 2000000) {
    tax = (250000 * 0.05) + (250000 * 0.075) + (500000 * 0.10) + ((s
}
else {
    tax = (250000 * 0.05) + (250000 * 0.075) + (500000 * 0.10) + (50

}

System.out.println("\n--- TAX DETAILS ---");
System.out.println("Employee Number : " + empNo);
System.out.println("Employee Name   : " + empName);
System.out.printf("Annual Salary   : Rs. %.2f\n", salary);
System.out.printf("Total Income Tax: Rs. %.2f\n", tax);

scanner.close();
}
```

5. Write a pseudocode to check whether the given number is an Armstrong number or not.

SIMATS Online Programming Lab

JAVA PROGRAMMING

```
1 import java.util.*;
2 import java.lang.Math;
3 class Armstrong
4 {
5     public static void main(String[] args)
6     {
7         Scanner sc = new Scanner(System.in);
8         int n = sc.nextInt();
9         int digit = sc.nextInt();
10        int Num = n;
11        int rem;
12        int sum = 0;
13
14        while(n>0)
15        {
16            rem = n%10;
17            sum = sum + (int)Math.pow(rem, digit);
18            n = n/10;
19        }
20
21        if(Num==sum)
22        {
23            System.out.println("The Given Number is Armstrong!");
24        }
25        else
26        {
27            System.out.println("The Given Number is not Armstrong");
28        }
29
30    }
31 }
```
